Coordinating Care for Better Patient Outcomes
Services and Support for Your Patients at Every Stage of Illness

To ensure prompt referral processing, please fax or call in your order.

Providence Home Health
Home-based health care services for those who cannot easily leave home for doctors’ appointments or therapy
Home health provides:
- Nursing services, including wound care
- Rehabilitation therapies
- Medical social work
- Mental health nursing*
- Nutritional therapy
- Home health aides
- Ongoing assessment
- Referral to and collaboration with other services, as needed

Medicare patients must have a medical necessity and meet “homebound” criteria to receive home health services.
