

Providence Brain and Spine Institute Provider Directory

Providence Brain and Spine Institute is a comprehensive, integrated center of excellence that treats all conditions of the brain and spine. Here, physicians and surgeons from a variety of disciplines work with referring physicians to design treatment and rehabilitation plans focused on each patient's needs.

Among our physicians are fellowship-trained specialists, leading researchers and experts in the latest minimally invasive surgical techniques.

Providence Brain and Spine Institute equips these physicians with the latest technologies, including:

- iMRI, the world's most advanced intraoperative neurosurgical imaging system
- Gamma Knife Perfexion
- The most advanced neuro-biplane catheterization lab in the region
- Providence Telestroke Network, providing 24-hour stroke expertise to hospitals across the region through a two-way video system
- Providence Functional Neurosurgery Center, offering state-of-the-art, life changing Deep Brain Stimulation surgery and Epilepsy surgery

This directory is a guide to help you refer to subspecialists who meet our rigorous standards to ensure the best care for your patients. Many of our physicians provide care to patients across the state and also can provide lectures and peer discussions with physicians on advancements in clinical techniques, research and diagnosis.

To refer a patient, call **503-216-1055**. For more information, visit us at Providence.org/physicianinfo.

OUR MISSION

As expressions of God's healing love, witnessed through the ministry of Jesus, we are steadfast in serving all, especially those who are poor and vulnerable.

OUR CORE VALUES

Compassion, Dignity, Justice
Excellence, Integrity

Providence.org/brain
