Does the patient have capacity to decide and effectively participate in the care plan?

Unsure → STOP

Yes → Is the patient likely to be cooperative/non-resistant?

No → Unsure → STOP

Yes → Are strategies/tactics available to gain and sustain engagement?

Yes → Attempt strategies/tactics

No → Will proceeding be safe and/or feasible relative to the complexity or invasiveness of the procedures of the plan?

Unsure → Unsure → STOP

No → Failure

Yes → Will care plan have a minimal negative impact on overall well-being?

Unsure → Unsure → STOP

No → Yes → Check-in with those who know patient more intimately

Unsure → Unsure → STOP

Yes → Yes → Create a strategy with clear parameters that determine if the care plan is not working or if any findings above turn out to be or become false

Review, Evaluate, and Adjust Plan

PROCEED
